Esoteric Healing Part 4 – Synthesis

Deepen Your Understanding of the Soul, the Seven Rays,
and the Science of Healing

Have you ever wondered how the many pieces of Esoteric Healing fit together into a more complete understanding of yourself, others, and the healing process?

Part 4 is where the philosophy and practical application of Esoteric Healing begin to merge into a deeper synthesis. Building upon the foundation established in Parts 1, 2, and 3, this class expands your understanding of healing, consciousness, psychology, and the soul while providing additional techniques for balancing increasingly specialized areas of the energy field.

- ✓ Work with specialized triangles associated with the nervous system, ears, and immune system
- ✓ **Deepen your understanding of Esoteric Psychology and the Seven Rays**
- ✓ Explore Glamour and Illusion and their influence on consciousness
- ✓ Refine your alignment and attunement with the soul
- ✓ **Strengthen your practical application of Esoteric Healing**

- ✓ Develop deeper insight into yourself and others as evolving spiritual beings
- ✓ Continue your journey of soul awareness and spiritual growth
- ✓ **Prepare for Certified Practitioner eligibility through NAEH**

The Online Philosophy Class explores the deeper principles of Esoteric Healing and the science of healing through the energy field. Building upon the foundation established in Parts 1, 2, and 3, students learn additional triangles within the Head Center and specialized balancing techniques associated with the nervous system, ears, and immune system. Topics include Esoteric Psychology, the Seven Rays, Glamour and Illusion, the right use of energy, why we want to be healers, the senses, eyes and ears, and the immune system. As the class progresses, students gain a broader understanding of the relationship between consciousness, energy, healing, and the soul.

The Online Practical Application Class is where students deepen their confidence and skill through hands-on experience. Students practice alignment and attunement, work with the specialized triangles introduced in Part 4, and continue balancing at the physical/etheric, emotional, mental, personality, and spiritual levels. There is extensive student-to-student practical application, opportunities for questions, and continued development of distance healing skills. As in previous classes, students both give and receive sessions, providing opportunities for learning, observation, and personal insight. Many students find this process to be deeply transformative as their understanding of healing and spiritual growth continues to expand.

Who should take this class? Any Esoteric Healing student who has completed at least the Esoteric Healing – Part 3 class! Proof of attendance may be requested.
